Figure 13 illustrates a flowchart for one embodiment of an e-marker music find function. Referring to Figure 14, at step 1310 user initiates [[a]] the find music operation from user terminal 103 as described above. Then at step 1320, search status pending display is output to display unit 751 of user terminal 103 output unit 750 for example, such as ring formation of arrows 1231 shown in Figure 12 is displayed on display unit 751 rotating in a clockwise direction. At step 1330, in one embodiment, server terminal 105 accesses user playlist databases 862 to retrieve playlists of bookmarked music clips corresponding to the bookmarked music clip which was used to initiate the find music operation. In an alternate embodiment, user terminals 103 may directly communicate with one another to execute find music operations.
